

The University of Toronto is **more** than **bricks** and **mortar**

Meet Marjorie, Kit, Diane, John and Marisa

A Research Accountant, Teaching Assistant, Library Technician, Maintenance Worker, Administrative Assistant.

Collectively they have worked for the University of Toronto for more than 55 years.

Staffing cuts not only threaten their livelihood, they threaten the quality of education at the University of Toronto.

One can only wonder why deep budget cuts and layoffs are necessary at a University that just raised \$1 billion dollars.

U of T works because WE do!
